University of Central Florida – Orlando, FL

Dec 2025

Master of Science in Computer Science | **GPA: 3.81**

University of Central Florida – Orlando, FL

May 2024

Bachelor of Science in Computer Science | **GPA: 3.83**

EXPERIENCE

CompositionToday

Aug 2023 – May 2024

Front-End Lead – Hybrid (Senior Design Project)

Stack: React · TypeScript · Node.js · Express · MySQL · Firebase · DigitalOcean

- Restructured the single-page React frontend into multi-page architecture to enable sitemap indexing and improve search engine performance.
- Built an admin control suite enabling content moderators to review and validate new and user-submitted content before publication, manage reports, and perform user moderation including bans.
- Drove SEO strategy via Google Search Console, sitemap implementation, robots.txt configuration, and keyword targeting to improve crawlability and organic search visibility for a live production application.
- Introduced WCAG-aligned accessibility enhancements and conducted user satisfaction research through interviews and an on-site feedback survey.

PERSONAL PROJECTS

Pheels: Mood & Diary Tracker – pheels.vercel.app

- Built a full-stack journaling and mood tracking app with RESTful API using Node.js and Express.
- Implemented mood visualization features displaying emotional trends over time using dynamic UI components.
- Designed a responsive, intuitive interface with MantineUI.

Truncc8: URL Shortener – truncc8.vercel.app

- Developed a URL shortening service with a RESTful API, data storage via MongoDB, and click tracking analytics.
- Built a clean frontend interface for link creation and management with real-time feedback.
- Implemented redirect logic and unique slug generation with collision handling.

Doble-Seis: Web-Based Multiplayer Dominos Game – doble-seis.vercel.app

- Built real-time multiplayer functionality using WebSockets, managing synchronized game state across multiple concurrent clients.
- Designed and implemented a lobby system supporting player matchmaking and session management.
- Architected a dynamic React frontend with responsive UI that adapts to live game state updates.

Personal Portfolio -- johnpacheco.org

- Portfolio website showcasing education, projects, skills, and experience with a clean, responsive design and integrated contact form.

TECHNOLOGIES & SKILLS
